SALEABLE MINERAL MATERIALS PERMIT EXPIRED RECLAMATION ADEQUATE FINANCIAL GUARANTEE REQUIREMENT RELEASED

Dear Mr. Walker:

In accordance with the terms and conditions of the Tusher Redwood saleable mineral materials contract, the permit for this project expired on July 10, 2008. The project proposed up to two acres of surface disturbance associated with excavation and recovery of petrified wood. A \$1,000 financial guarantee is currently being held by the Utah Division of Oil, Gas and Mining (DOGM) pending adequate reclamation of the proposed surface disturbance. You had recently requested a site inspection by the Bureau of Land Management (BLM) and release of the financial guarantee.

On August 27, 2014, the BLM and DOGM completed an inspection of the project area. Recontouring and revegetation of the site appeared adequate. Therefore, we are closing the case file for this project, and your financial guarantee for this project is no longer needed. A copy of this decision has been provided to the BLM Utah State Office and DOGM.
